Re: Petition to Establish Generic Docket to Consider Amendments to Interconnection
Agreements Resulting From Changes of Law; Docket No. 04-00381

Dear Director Tate:

XO wishes to correct its letter of March 3, 2005 in which reference to a true-up is made. XO is of the opinion that the best course is to defer ruling on the question of a true-up until the Authority has had the opportunity to consider this issue more thoroughly. While the Authority must resolve the issue related to the change of law provisions prior to April 17, 2005, the same deadline does not apply to the issue of a true-up. The Authority should have the benefit of all parties' positions and evidence related to a true-up and related issues. The issue of whether a true-up is required or appropriate should be addressed in the generic docket; any purported harm to BellSouth caused by delay can be addressed by a rate true-up, if such true-up is required or appropriate; if true-up is neither required nor appropriate, there is no harm to BellSouth. In its March 3, 2005 letter, XO did not intend to state or imply that a true-up is required or appropriate, up simply intended to point out that BellSouth's claim of harm would be more properly addressed by determining whether a true-up is required or appropriate in the context of the generic proceeding rather than by allowing BellSouth to take unilateral action on April 17, 2005.
